**FOR IMMEDIATE RELEASE**

## **Air Technology Engines Continues Hiring Trend**

*(Naples, FL – July 31, 2012)* Air Technology Engines is continuing to hire skilled mechanics and inspectors for their Naples, Florida facility. Due to the increase of repair and overhaul business, the company is expanding at a rapid pace.

Air Technology Engines is an authorized Honeywell T53 Service Center which overhauls and upgrades gas turbine engines, helicopter transmissions and dynamic components used in firefighting, armed forces and law enforcement helicopters.

The company is actively seeking experienced T53 mechanics and inspectors to meet growing demands. Experienced applicants are encouraged to send their resumes and make contact as soon as possible. Veterans are also encouraged to apply.

“We want to hire as many people as we can,” says Mike Turner, President of the Air Technology Group. “Our community talks about increasing manufacturing in Collier County all the time .... we’re doing it. We have openings and want to do our part to help the local economy. We also feel blessed to be able to offer good paying jobs to those who qualify.”
