## **Air Technology Group to Attend HELI-Expo 2010**

(Naples, FL – January 13, 2010) Air Technology Group, Naples based aviation companies Air Technology Inc. and Air Technology Engines Inc., will be attending the HELI-Expo 2010 in Houston, Texas from February 21-23, 2010.

The HELI-Expo 2010 provides an avenue for local, regional, and international companies to exhibit their products and services, ranging from aircraft manufacturing and machinery to defense equipment. Visitors to the expo include pilots, governmental agencies, students, media, and helicopter enthusiasts taking advantage of the chance to network with industry professionals from around the world.

Helicopter Association International called last year's HELI-Expo "a Resounding Success." Air Technology Group was one of the 585 exhibitors present at HELI-Expo 2009, with almost 18,000 visitors and 65 helicopters displayed on the showroom floor.

"Getting a chance to talk to clients and prospective clients in such an energized environment is always enjoyable," said Mike Turner, President of the Air Technology Group. "The attendees appreciate talking one-on-one with us as well and hearing about our over 35 years of experience in the field."

Air Technology Engines Inc. overhauls and upgrades gas turbine engines, in addition to overhauls of helicopter transmissions and dynamic components for helicopters used in firefighter, armed forces and law enforcement helicopters. Engine models supported include all series of the T53 engine, the Rolls Royce 250C20/T63 engine, transmissions and major components for the UH1H, AH1, 205, 212, 206 and OH58. Air Technology Engines is certified by the FAA, EASA and ISO9001:2000. The company provides specialized parts repairs and stocks over 20,000 line item parts for these helicopters.

Air Technology Group has supported the aviation industry for over 35 years with a world-class reputation for providing fast, efficient services to its clients. Air Technology is certified as a Top 20 Percent Performer by D&B *Open Ratings*. The company is located in Naples, Florida.
