FOR IMMEDIATE RELEASE

Air Technology Engines Exhibiting at HELI-EXPO® 2012

(Naples, FL – Dec. 15, 2011) -- Air Technology Engines will be exhibiting again this year at the HELI-EXPO in Dallas, Texas. The 2012 show, which runs February 11-14, will be a one-stop shop for everything helicopter related, covering one million square feet of space, complete with helicopters on the show floor. There will be displays from more than 600 exhibiting companies with Air Technology Engines exhibiting in booth 1205.

Air Technology Engines, an FAA certified repair station, is now a Honeywell T53 Engine Service Center providing overhaul and precision repairs for T53 engines. The company also provides transmission and component overhaul and repair services, plus spare parts, for 205/206/212/412/UH1H/OH58 helicopters.

HELI-EXPO attendees come from all around the world to take part in this show. Whether from near or far, from the United States or Asia, attendees come to gather under one roof, in one place, to discuss everything that is helicopter-related.

“HELI-EXPO is the most important helicopter show in the world,” says Mike Turner, President of the Air Technology Engines. “We are always excited to exhibit at this tradeshow and this year, we are proud to announce our newly appointed designation as a Honeywell Service Center for the T53 Engine. This will be a great opportunity for us to help customers improve engine reliability.”

About the Air Technology Group (*Air Technology Inc. and Air Technology Engines*):

Air Technology, Inc. provides specialized parts repairs and stocks over 20,000 line item parts for these helicopters.

Air Technology Engines, Inc. has developed additional precision repairs for gearbox housings, hot section parts, compressor parts and other engine/aircraft components. The company overhauls and upgrades gas turbine engines, helicopter transmissions and dynamic components used in firefighting, armed forces and law enforcement helicopters. The company specializes in providing maintenance for all models of the T53 engine, main transmissions and major components for the Huey UH1H, 205, 212, 206, OH58 and AH1 helicopters. Air Technology Engines is certified by the FAA, EASA and ISO9001:2000 and is now a Honeywell Service Center for the T53 engine.

Air Technology Group has supported the aviation industry for over 35 years with a world-class reputation for providing fast, efficient services to its clients. Air Technology is certified as a Top 20 Percent Performer by D&B *Open Ratings*.
